SUMMARY

Full-Stack Software Engineer with 3 years of experience building scalable web applications across healthcare, travel, apparel, and education domains. Skilled in JavaScript, TypeScript, React.js, Next.js, Angular, Node.js, NestJS, ASP.NET Core, and Laravel. Industry experience with AWS, Jenkins, Docker, and Microsoft Power Platform. Proven ability to deliver end-to-end solutions from system design to deployment.

PROFESSIONAL EXPERIENCE

ASSOCIATE SOFTWARE ENGINEER

DXDY Digital (Pvt) LTD

Dec 2024 – Present

- Currently developing a healthcare domain project (NestJS, Next.js, PostgreSQL), building backend APIs and responsive frontend features.
- Built a Shoes Manufacturing Company Management System (Laravel) with business process automation.
- Developed a travel planning system (Next.js, NestJS, PostgreSQL) with end-to-end design and backend integration.
- Developed a school system website (WordPress, Elementor) with custom responsive layouts.
- Developed an Apparel Industry Management System (ASP.NET, MSSQL) with automated operational workflows.
- Built a travel management system (ASP.NET, MSSQL) with full booking workflow and approval processes.

INTERN RPA DEVELOPER

DP Infotech (Pvt) Ltd

Mar 2024 – Sep 2024

- Built an Asset Management application using Power Apps, SharePoint, and Power Automate
- Developed and deployed a chatbot integrated with Microsoft Teams using Copilot Studio and Power Automate
- Implemented an MSL ticketing system integrating Power Automate with a Python backend
- Researched and prototyped a digital signature solution using Power Apps and SharePoint
- Explored JIRA Server API integration for workflow automation

ASSOCIATE SOFTWARE ENGINEER

Nino Digital House (Pvt) Ltd

Jul 2023 – Nov 2023

- Led backend and frontend development of an Online Student Management System using Laravel and Angular
- Deployed projects via Direct Admin with domain configuration and performance optimization

KEY SKILLS

- Continuous Learning
- Leadership
- Excellent communication
- Flexible
- Quick thinker
- Adaptability
- Problem solving
- Rapid decision-making

TRAINEE SOFTWARE ENGINEER

Nino Digital House (Pvt) Ltd

Jan 2023 – Jul 2023

- Designed and developed an OMDB Movie Portal using Angular and REST API, featuring real-time movie search, detailed movie information, and a responsive UI for an enhanced user experience.
- Created a fully functional e-commerce website using WordPress with integrated payment gateways, product catalog management, and user-friendly navigation to support seamless online shopping.
- Contributed to building a School Management System using Laravel and Angular
